

Can you describe the changes that happen across the four seasons?

Autumn
September
October
November

Winter
December
January
February

Spring
March
April
May

Summer
June
July
August

Do you know when the 4 seasons fall?

Can you use your senses to make observations?

We are learning to work scientifically

\*Ask questions raised by our own exploration of the world around us.

\*Draw on our everyday experiences to help answer questions.

Which seasons are these things linked to? How do you know?

Look at the number of hours of sunlight we have during the autumn. Have you spotted any patterns?

Month	Sept	Oct	Nov	Dec	Jan	Feb	Mar	April	May	June	July	Aug
Hours of sunlight	13	11	9	8	8	10	12	14	15	16	16	14

Bonfire Night happens in autumn, on the 5<sup>th</sup> November.

Why do you think it is a good idea to watch fireworks in the autumn? Could we watch fireworks in the summer?
